CAREER OBJECTIVE

Passionate software developer and MCA student with a solid foundation in databases, web technologies, and full-stack development. Skilled in MERN stack, PHP Laravel, and modern UI design, with hands-on experience building scalable applications. Eager to apply problem-solving abilities and technical expertise to contribute to innovative projects while continuously growing as a professional.

EDUCATION

Master of Computer Application, *Francis Xavier Engineering College* 09/2024 – Present | Tirunelveli, Tamil Nadu
CGPA: 8.36

B.Sc Computer Science, *Sadakathullah Appa College* 06/2021 – 05/2024
Tirunelveli, Tamil Nadu
CGPA: 8.6

PROJECTS

SavePlate - Food Rescue Network Management  12/2025 – 12/2025
Inter Department Hackathon Project | Full Stack Web App

- Developed a full-stack food donation management platform using **React.js, Node.js, Express.js, and MySQL**, enabling donors to post surplus food and NGOs to claim donations in real time.
- Implemented **role-based authentication and RESTful APIs** for user registration, login, donation creation, retrieval, and claim tracking with secure password hashing.
- Designed an **admin dashboard with dynamic statistics and donation records**, integrating frontend components with backend APIs and database operations.

TASKFLOW -Task Management Application, 06/2025 – 07/2025
Internship Project | Technologies: PHP (Laravel Framework), SQL

- Task Management Web Application using **PHP Laravel, MySQL**, and the MVC architecture during the internship.
- The system includes Admin and User roles for task assignment, tracking, and approval.

E-TRONICS - an Ecommerce Website, *Full-Stack Development* 12/2023 – 03/2024

- Led the development of E-TRONICS, a full-stack e-commerce platform for electronic products. Designed an intuitive user interface, implemented secure payment gateways, and created an admin module for efficient management.

INTERNSHIP

Web Developer Intern, *Dynamic Scientific and Research Center* 03/2025 – 12/2025 | Tirunelveli

- Proficient in Laravel Nova, with experience crafting administrative interfaces and user-focused workflows for institution's academic data platforms.
- Developed and Maintaining a web app used by 500+ daily users.

Java Development Intern, *Iconic Software Solution* 01/2023 – 01/2023 | Tirunelveli

- Designed and improved a dynamic Java Applet project simulating real-time ball motion within a graphical user interface, enhancing animation performance by 25%.
- Implemented user-controlled motion and event-driven interactivity, improving responsiveness and demonstrating strong practical skills in GUI and real-time programming.
